
AWG injection and FPGA readout
Post-HPF reference
Recorded waveform
AWG input (signal + noise)
Noiseless signal
Recorded chunk
Full 1000 ns input and noiseless signal
Ch0: full AWG waveform
Ch2: full AWG waveform
Time from first AWG sample (ns)
(a) Ch0: signal injected
r = 0.9496
(b) Ch1: no signal injected
(c) Ch2: signal injected
r = 0.9501
(d) Ch3: no signal injected
Displayed voltage (mV)
Time within recorded window (ns)
