
AWG signal injection and FPGA-triggered readout
Time-aligned post-HPF reference
Recorded FPGA waveform
AWG input (signal + noise)
Estimated noiseless pulse
Recorded chunk
Full 1000 ns AWG input and injected pulse
Ch0: full AWG waveform
Ch2: full AWG waveform
Time from first AWG sample (ns)
(a) Ch0: signal injected
r = 0.9496
(b) Ch1: no signal injected
(c) Ch2: signal injected
r = 0.9501
(d) Ch3: no signal injected
Displayed voltage (mV)
Time within recorded window (ns)
